

# Enabling Third-Party Cookies on Web Browsers

Please follow the browser-specific instructions below to enable third-party cookies.

## Microsoft Internet Explorer

### To enable cookies in IE:

1. Click Settings > Internet Options icon.
2. Click the Privacy tab.
3. Click the Advanced button.
4. Select the 'Accept' or 'Prompt' option under 'First-party Cookies.'
5. Select the 'Accept' or 'Prompt' option under 'Third-party Cookies.' (Note: if you select the 'Prompt' option, you'll be prompted to click OK every time a website attempts to send you a cookie.)
6. In the Internet Options window, click OK to exit.

## Mozilla Firefox

### To enable cookies in Mozilla Firefox 3.x (PC):

1. Click Tools > Options.
2. Click Privacy in the top panel.
3. Select the checkbox labelled 'Accept cookies from sites.'
4. Select the checkbox labelled 'Accept third-party cookies.'
5. Click OK.

### To enable cookies in Mozilla Firefox 2.x (PC):

1. Click Tools > Options.
2. Click Privacy in the top panel.
3. Select the checkbox labelled 'Accept cookies from sites.'
4. Click OK.

## To enable cookies in Mozilla Firefox 1.x (PC):

1. Click Tools > Options.
2. Click Privacy in the top panel.
3. Click the Cookies tab.
4. Select the checkbox labelled 'Allow sites to set cookies.'
5. Click OK.

## To enable cookies in Mozilla Firefox Latest (PC):

1. Click Tools > Options.
2. Click Privacy & Security in the left panel.
3. Select Custom radio button under Browser Privacy section
4. Unselect the checkbox labelled 'Cookies' and click on 'Reload All Tabs'
5. Go to the Cookies and Site Data section
6. Unselect the checkbox labelled 'Delete cookies and site data when Firefox is closed.'

The screenshot shows the 'Privacy & Security' settings in Mozilla Firefox. The 'Privacy & Security' tab is selected in the left sidebar. The 'Enhanced Tracking Protection' section is active, showing three options: 'Standard', 'Strict', and 'Custom'. The 'Custom' option is selected and highlighted with a red box. Under 'Custom', the 'Cookies' checkbox is unchecked and highlighted with a red box. Below this, there are checkboxes for 'Tracking content', 'Cryptominers', and 'Fingerprinters', all of which are checked. A blue notification bar is highlighted with a red box, stating: 'You will need to reload your tabs to apply these changes.' with a 'Reload All Tabs' button. Below this is a 'Heads up!' warning: 'This setting may cause some web sites to not display content or work correctly. If a site seems broken, you may want to turn off tracking protection for that site to load all content.' At the bottom, the 'Cookies and Site Data' section is visible, with a checkbox for 'Delete cookies and site data when Firefox is closed' which is unchecked and highlighted with a red box.

### Browser Privacy

#### Enhanced Tracking Protection

Trackers follow you around online to collect information about your browsing habits and interests. Firefox blocks many of these trackers and other malicious scripts. [Learn more](#) [Manage Exceptions...](#)

Standard  
Balanced for protection and performance. Pages will load normally.

Strict  
Stronger protection, but may cause some sites or content to break.

**Custom**  
Choose which trackers and scripts to block.

Cookies

Tracking content [Only in Private Windows](#)

Cryptominers

Fingerprinters

**You will need to reload your tabs to apply these changes.** [Reload All Tabs](#)

**Heads up!**  
This setting may cause some web sites to not display content or work correctly. If a site seems broken, you may want to turn off tracking protection for that site to load all content. [Learn how](#)

Send web sites a "Do Not Track" signal that you don't want to be tracked. [Learn more](#)

Always

Only when Firefox is set to block known trackers

#### Cookies and Site Data

Your stored cookies, site data, and cache are currently using 36.5 MB of disk space. [Learn more](#)

Delete cookies and site data when Firefox is closed
